Part III DETAILED ACTION

Status of the claims

Response filed 03/27/2003 is acknowledged. Claim 5 is pending.

Claim 5 remain rejected under 35 U.S.C. 102(b) as anticipated by Coy et al (US 4,853,371) or Bogden (US 5,411,943). The rejection is maintained for the reasons of record.

Applicant argues that the references do not teach compositions comprising active ingredient in the amounts sufficient to treat delineated diseases or conditions. Effective amount for treatment the laundry list of conditions, ranging from sclerosis to cancer to panic attacks, is not identified in the claims. Specification mentions generic dosage range of 250 μ g/kg/day to 5.0 mg/kg/day (p. 6) which, again, is not demonstrated to be effective in treatment of any of particular disorders. Teaching of dosages in the cited prior art is fully within the range recited in the instant specification (see Coy, col. 4, lines 34, 35; Bogden col. 7, lines 5,6), and there is no reason to believe that the amounts recited in the references will be completely ineffective in treatment of the disorders mentioned in the instant claims. Since the Office does not have the facilities for examining and comparing applicants'

composition with the compositions of the prior art, the burden is on applicant to show differences between the claimed product and the products of the prior art (i.e., that the amount of the active ingredients in the compositions of the prior art is not effective in treatment of the disorders mentioned in the instant claims). See *In re Best*, 562 F.d. 1252, 195 USPQ 430 (CCPA 1977) and *In re Fitzgerald et al.*, 205 USPQ 594.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
